📍 Pune, India

Education

Walchand College of Engineering, Sangli (8.36 CGPA)

B.Tech in Information Technology

Jul 2020 – Jun 2024

Sangli, Maharashtra

Experience

Member of Technical Staff - Sincro Digital (DealerOn)

Sept 2024 - current

Digital Advertising Platform-(DAP) Team

Pune

- Contributed to web applications using **Spring Boot, Angular, Java, JavaScript, SQL and TypeScript**.
- Added new columns to tables and enhanced data display features in Angular.
- Created SQL queries for data retrieval and manipulation.
- Utilize **Git, Bitbucket, Docker, and CI/CD** (Bamboo) for smooth deployment processes.

IT intern - NortonLifeLock (Gen)

March 2024 - Sept 2024

IT Product Development Team

Pune

- Hands-on with **Java, web services, Spring Boot, and RESTful APIs** to develop application features.
- Deepened my understanding of backend development and various software development practices.
- Actively collaborated with team members to improve technical and teamwork skills.

Skills

Languages: C++, SQL, Java, JavaScript, TypeScript, Dart

Frameworks: Spring Boot, Angular, React, Node.js, Flutter

Tools: GitHub, Linux

Databases: Firebase, MongoDB, MySQL

Projects

PickNDrop | *Flutter, Firebase, Google Map, Razorpay*

- Developed an android app that provides a platform that connects sender, service provider (package carrier) and receiver, for package delivery services enabling seamless coordination throughout the delivery process.
- Key Features include **Algorithm to map feasible service provider to sender, Google map, Razorpay, Authentication (with Admin section), Notification**.

Digital Notice Board | *Flutter, Firebase*

- Android app to simplify and digitize the notice circulation process, enhancing efficiency and user convenience.
- Key Features include **Upload Notices (attach pdf, images, links), Instant Notification, List of students seen/acknowledged Notice, Email Authentication, Bookmark notices**.
- Installed and used by more than 50 users.

Relevant Coursework

- | | | |
|----------------------------------|-----------------------|-----------------------|
| • Data Structures and Algorithms | • Computer Networks | • Android Development |
| • Operating Systems | • Database Management | • Parallel Computing |

Achievements

- ***Secured first place*** in the highly competitive Codeduet coding competition organized in College, showcasing exceptional problem-solving skills.
- **365+ days** streak on Codeforces platform.
- **3-Star** on Codechef platform (Rating: 1618).
- **1300+ questions** solved on different coding platforms.
- **Runner-Up** at IMPULSE (College Event) for showcasing exceptional presentation skills and teamwork.
